**Subject:** suite against the Kof C Supreme

Gentlemen:

I would like some additional information in this Colorado suite against the K of C Supreme.

There is no question in the fact that Supreme and State of FI. are charging, and have been charging for per-capita taxes on members who have not paid dues. In my Council I have members who have never paid dues for as long as 10 years, yet we cannot suspend nor drop them for any reason. nor will they. It is totally out of context. State of FI and Supreme last year told me not to not to carry a balance due in a members account. but rather clear all account balances before the next billing cycle. I didn't. At present this council has a balance of close to \$20,000.00 in delinquent dues accounts. The reason for additional information
